

VÖLKL® Safari

VÖLKL Safari

VÖLKL Safari Camouflage

The Safari boot range has been developed for all weather conditions. Through the special lining construction the boots are highly breathable. The optimized air circulation allows perfect isolation against cold and warm temperatures. They are also 100% waterproof through water repellent textile, sewing threads and hydrophobic leather. The directly injected soles are made of an abrasion resistant rubber outsole completely filled with smooth and light polyurethane for optimum comfort. They are extra light and very flexible.

Product features

- Waterproof nubuk leather (Safari) or full grain waterproof Camouflage leather (Safari Camouflage) combined with abrasion resistant Cordura® fabric with PU coating, water resistant sewing threads, waterproof and breathable, abrasion resistant protective toe cap
