

VÖLKL® Panda Polar

This high-quality winter boot has been considered for years as the warmest boot in its category. Thanks to the highest quality materials and its special cold insulation concept, Panda Polar guarantees long term high wearing comfort, even at very low temperatures. Thanks to its wide cut and its additional folding flap with a buckle on the upper edge, the hunting pants can be worn in the boots. Panda Polar is made in traditional, authentic double stitched style. This technique is now dominated by only a handful of specialists.

Technical description

- Brown waterproof nubuck leather, thickness 2,4 - 2,6 mm
- Waterproof split leather at the top of the boot upper
